Electrical Risks

These multipurpose ABC Powder filled 4 kg & 6 kg automatic fire extinguishers fight many types of fire.

They will protect most areas normally left unattended. Commonly used to protect machinery / plant where there is a risk of fire, such as in boats / engine bays, flammable products storage areas etc. The size of unit required is determined by the floor area of the compartment to be protected. Only one unit should be installed in any one compartment and should provide the total protection required for that compartment.
